

AVAILABILITY OF FUNDS:

The final LSC appropriations for FY 2011 and 2012 are not currently available. LSC anticipates that it will receive the final 2011 appropriation by April 15, 2011. Once available, LSC will post the list of service areas and the estimated 2011 funding levels for each service area in Appendix A of the RFP at www.grants.lsc.gov. Applicants will use service area funding amounts based on the 2011 appropriation for the purpose of preparing the 2012 grant applications.

LSC 2012 funding is subject to future Congressional action and there is no guarantee that the full amount of funding provided in Appendix A will be available. The final grant awards for individual service areas will be based on the amounts, terms, and conditions contained in the final FY 2012 appropriation, and calendar year 2000 census data. These amounts may vary significantly from the amounts provided in Appendix A. Revised budgets and plans, based on the final appropriation, may be required from all successful Applicants. LSC reserves the right to: 1) vary the amount awarded from the amount applied for; and 2) provide funding in graduated amounts to assist new recipients with start-up and transition.
